Welcome to our Summer Treatment Menu!

We are all becoming much more aware of our environment, what surrounds us and what we put in and on our body.

At Harringtons we continue to make steps towards being an environmentally friendly salon.

For this we have chosen new brands that echo our ethos:

For Hair we have chosen Kevin Murphy, an Australian hair company that is eco friendly - they take plastic out of the ocean which they then use to make their bottles, which are also bio-degradable)
They are Vegan Friendly and Cruelty Free
and the results speak for themselves on your hair

We launched with Natural Spa Factory last year for our face and body treatments - you are loving it! As we knew you would. We love the fact that it is made in Bath, vegan friendly, eco conscious, cruelty free and fabulous!

For our popular gel polish treatments, we have chosen The Gel Bottle.
A British Brand, Vegan Friendly & Cruelty Free but the best thing is the outstanding colours - we promise you will love them!

We already swapped plastic cotton buds for paper ones together with many other changes.

Now all you have to do is choose your next treatment - why not start with our Summer Specials?
